

The logo for DRP Industries features the letters 'DRP' in a large, bold, red, italicized sans-serif font. Below 'DRP', the word 'INDUSTRIES' is written in a smaller, red, italicized sans-serif font. The entire logo is enclosed within a red, stylized rectangular border that has a slight 3D effect with a grey shadow on the right side. The background of the slide is light grey with a large, abstract graphic on the left side consisting of several overlapping diagonal bands in red and grey.

**DRP**  
**INDUSTRIES**

**CUSTOMER-FOCUSED**

**SAFETY-ORIENTED**

**QUALITY-DRIVEN**

# ABOUT US

We opened our doors in Granbury, Texas in 2010. Founded by the Laughlin family -- Kenny, Linda, and their son, Alex, DRP Industries has grown to include a dedicated and highly qualified team of employees and several new buildings and machines.

Being located in the heart of Oil & Gas country has provided us with numerous opportunities in that sector. This has given us the core competency of manufacturing products for some of the harshest and most volatile conditions out there. As we have grown and extended our services to customers in all sectors of business, from automotive to firearms, we have applied our rigorous safety and quality standards to every part we touch, regardless of the industry. And we have the certifications to prove it, including ISO 9001:2008 and AS9100 C.

We strive to bring our customers an unparalleled service experience through custom manufacturing solutions that meet the requirements of today's service intensity while anticipating tomorrow's needs. At DRP we offer our customers quality products in a streamlined, full service platform customized to them. Whether you are a five person company with limited design capabilities or a global corporation with a full engineering team behind you, we will work with you to find a solution that fits your needs. This deep-rooted philosophy ensures that DRP provides top quality customer service, above all else. We pride ourselves in providing our customers with the individualized attention of a small-time company while providing big-time solutions and services.

# CAPABILITIES

## MACHINING

---

- CNC Turning
- 3 Axis CNC Milling
- 4 Axis CNC Milling
- Conventional Equipment
- Prototype Production/3D Printing

## COATINGS

---

- Wet Paint Line
- Powder Coating
- Xylan
- Zinc Phosphate
- Sand Blasting

## FABRICATION

---

- Component Assembly
- Turnkey Product Assembly
- Certified Welding
- 220 Ton Press-Brake
- 12 FT Shear
